

Joseph K Anoj

FRONTEND DEVELOPER

josephkanoj@gmail.com | +91 97447 88125 | Bangalore, India | Relocating to the EU

josephk.dev | github.com/josephkanoj | linkedin.com/in/josephkanoj

Work eligibility: Indian citizen seeking employer-sponsored relocation to Sweden, Finland, Norway or Denmark. Degree-qualified for the standard skilled-worker permit in all four countries and for the EU Blue Card. Available at 30 days' notice.

SUMMARY

Frontend Developer with 3+ years building production web interfaces in React, Next.js and Astro, working remote-first in distributed, English-speaking teams throughout. Currently ship the frontend across a multi-brand startup studio on a shared component library, design tokens and a CI/CD pipeline. Strong on translating Figma into accessible, responsive, maintainable UI, integrating REST APIs, and carrying interactive work (3D, animation, real-time dashboards) from prototype to production.

EXPERIENCE

Frontend Developer

Jul 2025 - Present

BeyondZ / Venture Way - Remote

- Delivered **8+ production marketing and corporate sites** for a multi-brand startup studio - including VentureFactory.AI, BeyondZ and the World Startup Federation - on a shared component library, design-token system and GitHub Actions pipeline.
- Built the frontend of an in-house **headless CMS platform**: a React/MUI admin console for content management and submissions review, plus typed API clients with retry/backoff that consume the CMS REST API from production client sites.
- Built the frontend of a **Next.js corporate site**, including a password-gated admin dashboard for blog and case-study content with rich-text editing and image upload, integrated against a Supabase backend.
- Implemented advanced interactive features - a **Three.js / react-three-fiber 3D globe hero**, an AI-persona chat UI, animated neural-network graphics - with Playwright coverage and Azure Static Web Apps CI/CD.

Freelance Frontend Developer

Oct 2024 - Jul 2025

Self-employed - Remote

- Built a full-stack management application replacing manual tracking; client reported an estimated **15-25% productivity gain**.
- Designed and built a real-time **IoT dashboard UI in React**, focused on usability and live interactivity.
- Delivered complete product UI/UX from scratch against accessibility and design-system guidelines, and shipped a responsive startup marketing site in Wix Studio with custom CSS.

Full Stack Developer Intern

Jan 2024 - Jul 2024

Cuvette Tech - Remote

- Built **Quizzie**, a MERN-stack quiz builder with a responsive interface implemented from Figma designs.
- Built **Task Manager**, a full application with JWT authentication, CRUD operations and secured REST API endpoints.

Independent Study - Full Stack Development

Jan 2023 - Dec 2023

Self-directed - India

- Retrained from frontend into **full-stack development**, working through the MERN stack end to end and building browser games and small full-stack applications with authentication and CRUD APIs - including the React projects listed below.

Associate Developer L1

Feb 2022 - Dec 2022

Publicis Sapient - Bangalore, India

- Developed frontend features for a **high-traffic eCommerce platform** on Salesforce Commerce Cloud (SFCC), in a global delivery team working to European and US client standards.
- Led frontend development for a hotel-management system - booking, room availability and authentication - in Agile teams, running code reviews against web-performance standards.

PROJECTS

Workflow Builder - Flowchart builder with drag-and-drop nodes, Context API state and local-storage persistence. React, React Flow, Context API

Versa Hub - Notes, weather, film and news features behind one interface, integrating several public APIs. React, Vite, REST APIs

Portfolio (josephk.dev) - Zero-framework-JS Astro build with a canvas particle-portrait hero, a working in-page shell, and full reduced-motion and keyboard-accessibility support. Astro, TypeScript, Canvas

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript (ES6+), Java, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Astro, Vite, React Three Fiber, React Flow, Responsive Design, Web Accessibility (WCAG 2.2 AA)

Styling: Tailwind CSS, Sass, CSS Modules, shadcn/ui, Radix UI, Material UI, Design Systems, Design Tokens

Backend: Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, Supabase, JWT Authentication

Tooling: Git, GitHub Actions, CI/CD, Azure Static Web Apps, Vercel, Playwright, Figma, Postman, Framer Motion, Agile / Scrum

Spoken Languages: English - fluent, sole working language across every role to date

EDUCATION

B.Tech, Computer Science & Engineering

2017 - 2021

Sahrdaya College of Engineering and Technology - APJ Abdul Kalam Technological University
